Keyboard	Daniel Hochreiter	No	Yes	Back stage left
Vocals	Alexander Lips	Yes	Yes	Front center
Engineer	Patrick Bender	-	-	-

Tech-Rider 2019.2

Info:

Shellz will not bring any guitar or bass cabinets with them. Christopher (Drums) will always bring his breakables (Cymbals, Snare, Stands). Please inform us at least two weeks ahead if we will have to bring a full drumset with us or if we can use the venues/festivals backline.

The promoter respectively the hired sound-engineer is responsible for appropriate drum-micing (Shure, Sennheiser, Beyerdynamic etc.)

Shellz will take care of the cabling going in our IEM-rack.

Inputs 10 to 21 run into the band's live IEM-rack and are fed trough via a mic-splitter to the stagebox. The band will bring 2 labeled 8-channel multicore-cables. All channels are mic-level or balanced line-level.

Please note, that the drum mics that Shellz uses will not be fed-trough to the FOH.

We use an Behringer X32 Producer for our in-ear monitoring, digital split is also possible. (inform us ahead!)

Shellz doesn't need any monitor wedges on stage, but if there is a monitor wedge available our drummer would be grateful for some Kick and Snare.

Shellz will bring their own sound engineer but we need the venues/festivals sound engineer that is familiar with the location and that will do a Line-/Soundcheck together with our sound engineer.

The sound engineer must also be available during Shellz` show for questions.

Tech-Rider 2019.2

Needs from the venue/promoter:

Drums	Yes, if possible	FOH Engineer	Yes
Full PA-System + Mixer	Yes	Monitor Engineer	No
Monitor Systems + Mixer	No	Light Engineer	Yes
Stage lights	Yes	Drum-Riser	Yes

The band will bring a 5 x 2,8 m backdrop with them!
